 (Department of Food and Public Distribution)

ANTYODAYA ANNA YOJNA

Guidelines

OBJECTIVE:

Antyodaya Anna Yojana has been launched by the Hon'ble Prime Minister of India on the 25th December, 2000. This scheme reflects the commitment of the Government of India to ensure food security for all, create a hunger free India in the next five years and to reform and improve the Public Distribution System so as to serve the poorest of the poor in rural and urban areas. It is for the poorest of poor that the Antyodaya Anna Yojana has been conceived. It is estimated that 5% of our population are unable to get two square meals a day on a sustained basis through out the year. Their purchasing power is so low that they are not in a position to buy foodgrains round the year even at BPL rates. It is this 5% of our population (5 crores of people or 1 crore families) which constitutes the target group of Antyodaya Anna Yojana.

SCALE AND ISSUE PRICE

Antyodaya Anna Yojana contemplates identification of one crore families out of the number of BPL families who would be provided foodgrains at the rate of 25 Kg. per family per month. The foodgrains will be issued by the Government of India @ Rs.2/- per Kg. for wheat and Rs.3/- per Kg. for rice. The Government of India suggests that in view of abject poverty of this group of beneficiaries, the State Governments may ensure that the end retail price is retained at Rs. 2/- per kg. for wheat and Rs. 3 per Kg. for rice.

IDENTIFICATION OF BENEFICIARIES

The most crucial element for ensuring the success of Antyodaya Anna Yojana is the correct identification of Antyodaya families. It is estimated that there are 6.52 crore families below poverty line in the country as on 1.3.2000. These families are being provided foodgrains under the TPDS at BPL rates. One crore Antyodaya families would constitute about 15.33% of the BPL families in the country. The identification of these families will have to be carried out by the State Governments/UT Administrations, **amongst the number of BPL families within the state**. The number of Antyodaya families for each State and UT has been worked out and is at Annexure.

- (a) The following steps are suggested for identification of Antyodaya families :
- UTs may, in turn, distribute this number among the various districts, keeping in view

- (a) the incidence of poverty and backwardness etc. for which primary data would be available with the States/UTs from various sources.
- (b) Similarly, in the districts the number of Antyodaya families can again be distributed among various Panchayats and the municipal areas.
- (c) District Collectors may then start the process of identification after giving it wide publicity. This work may be taken up as a campaign so that people are aware of the process and procedure adopted for identification of beneficiaries under the scheme.
- (d) District Collectors may press into service all district level officers working with them for supervising the process of identification in various Development Blocks.
- (e) At the Block level, each Panchayat may be assigned to an Officer of Revenue, Development or some other Department who should be held accountable for proper identification of beneficiaries.
- (f) In each Panchayat, in the first phase, a tentative list of the poorest of the poor may be drawn up keeping in view the overall number of the families allotted to the Panchayat.
- (g) The State Government/UT Administration may devise a suitable form for identifying the beneficiary families under the scheme. The data contained in the form should be verified by the Officer nominated for this purpose. The Officer verifying should be held accountable for the verification.
- (h) Once the tentative list for a Panchayat is ready, in the second phase, a meeting of the Gram Sabha may be held. This meeting should be attended by the officer who has been assigned the particular Panchayat. The officer should ensure that meeting of Gram Sabha is held when there is a quorum.
- (i) The tentative list may be read-out in the meeting of the Gram Sabha and the Sabha may finalise the list of beneficiaries and arrange the names in the order of priority with the family mentioned at Sl.No.1 as the most deserving.
- (j) Once the list is approved by the Gram Sabha, it may be consolidated at the Panchayat level and then at the District level.
- (k) In the case of urban areas, the State Governments/UT Administrations may undertake a similar exercise by involving the urban Local Bodies. The

identification may be done Ward-wise by the Chief Executive of the Urban Local Body with the help of the officers/officials working under him . The preliminary list of beneficiaries may be given wide publicity and also displayed at the Ward Level inviting objections. After going through this process, the consolidated list for the Urban Local Body may be placed before the House of the Urban Local Body and its approval obtained.

(I) In cases where elected bodies in rural/urban areas are not in position, the State Government/UT Administration may evolve a suitable mechanism for identification of beneficiaries in an impartial and objective manner.

ISSUE OF RATION CARDS

After the identification of Antyodaya families, distinctive ration cards to be known as "Antyodaya Ration Card" should be issued to the Antyodaya families by the designated authority. The ration card should have the necessary details about the Antyodaya family, scale of ration etc.

ALLOCATION OF FOODGRAINS BY GOVERNMENT OF INDIA

Once these ration cards are issued, the allocation of foodgrains will be made by the Government of India to the State Governments/UT Administrations for distribution to the Antyodaya families through Fair Price Shops.

The Government of India expects that the State Governments/UT Administrations will be able to complete the identification of beneficiaries within a period of two months. In case a State Government/UT Administration completes the process earlier, the Government of India will allocate foodgrains in favour of that State Government / UT Administration earlier.

Correct and honest identification of Antyodaya families will be the key to the success of Antyodaya Anna Yojna. It should, therefore, be the endeavour of the State Government/UT Administration that only the deserving and the needy are identified and they get the benefits of Antyodaya Anna Yojna. The Antyodaya families list should reflect the poorest of the poor in the district.

The Government of India will link the allocation of foodgrains to States/UTs to the receipt of utilization certificates from them to the effect that the foodgrains have actually reached the Antyodaya families.

ANNEXURE

STATEWISE NUMBER OF POOREST OF THE POOR FAMILIES

Sl. No.	State/UT	Total Population Projected as on 1.3.2000 (In lakhs)	Average size of Households as per 1991 Census	Percentage of BPL Population in the State	Total No. of BPL Households In the State (In lakhs)	Poorest of the the Poor Households In the State (15.33% of BPL Households) (In lakhs)
